Bachelor of Science: Computer Science, Math Minor, Interactive Media Minor, 12/2024
University of Miami - Coral Gables, FL

- GPA: 3.8/4.0
- Provost's Honor Roll
- President's Scholarship

Work History

Product Management + Quality Assurance Intern, 06/2024 to 08/2024
Caregility

- Worked with other Product Managers, Tech leads, Designers, and Quality Assurance testers to assist with ongoing Product Management products.
- Conducted market research for Computer Vision and Ambient Documentation AI products.
- Created 5 Confluence pages with information detailing the relevance of researched products for the company.
- Gathered and reviewed requirements from stakeholders for two new AI functionalities.
- Collaborated with a UX Designer to draft and review mock-ups for the new AI functionalities.
- Created comprehensive workflow drafts for the new AI functionalities.
- Tracked progress and assigned tasks for both AI functionalities on a Jira board.
- Created 3 requirements documents as Confluence pages for 3 projects. Two were initiated by me. One was initiated by another Product Manager.
- Completed Quality Assurance test tickets and conducted general smoke testing for two different products.
- Attended daily scrum calls for Quality Assurance.
- Designed and presented a slideshow to educate stakeholders about AI and encourage

Meta Quest Hardware + Software Setup/Testing - Knight Hall Project, 01/2024 to 03/2024
University of Miami

- Set up 18 Meta Quest 3 devices
- Created 18 email accounts for the devices, along with the corresponding Meta, Figmin app, and Sketchfab accounts.
- Labeled the devices, logged them into the admin and 18 separate accounts for all the copies of Figmin, charged them, and kept track of all of them on excel spreadsheets to ensure smooth testing for the UM Frost Opera Theater's Knight Hall Project.

Teaching Assistant, 08/2023 to 12/2023
University of Miami

- Reinforced student understanding of 9 weeks of class material by mentoring students from the Data Structures and Algorithms class and the Computer Programming II students one-on-one
- Went over each of the 9 assignments from the class including topics like Red-Black Trees and Dynamic Programming
- Evaluated and graded the Data Structures and Algorithms class's 68 students' assignments biweekly with detailed notes per question.
- Guided students in two Computer Programming II labs per week for a month (Sept 13 - Oct 15).

Lead Developer, 01/2023 to 12/2023
University of Miami

- Developed an AR application for the Samsung Android tablet using C# and Unity
- Accomplished project milestones and deliverables on time using the Kanban system on Trello
- Planned and arranged creative software solutions to meet business goals and objectives
- Collected and defined end-user requirements by working closely with managers, customers, and team members during weekly meetings
- Provided regular demonstrations of weekly progress to stakeholders
- Collaborated with the developer team, artists, modelers, and the client to deliver software projects

Developer, 02/2021 to 12/2022
University of Miami

- Designed, directed, and deployed a simulation to the Magic Leap headset by using C# and Unity and several other applications
- Attained experience using Agile Scrum Methodology by participating in Scrum calls
- Operated based on Sprints by using Jira for task distribution
- Improved future development activities by documenting procedures, errors, and results
- Analyzed usage data, feedback, and performance reports to improve user experiences

Skills

- Python
- Java
- HTML
- JavaScript
- Swift
- C#
- Unity
- CSS
- Unreal
- C++

- Plastic SCM and GitHub
- MetaQuest3 and Magic Leap

Journal Publication

Foronda, C., Mehta, E., Morales, M. J., Cacchione, M., Gattamorta, K. A., & Cardenas, M. (2023). Usability of a virtual reality application to
educate family caregivers of children with asthma. Clinical Simulation in Nursing, 84, 101465.

Projects

- Tune-Up Tonic: Game Off 2023 Game Jam and Post-Jam "Jam" #8 submission https://thebirdbard.itch.io/tune-up-tonic
- Temikki: An android application using Augmented Reality elements. Worked on during my time at VESL.
- Asthma Academy: A virtual simulation offered via a Magic Leap VR headset. Worked on during my time at the XR Garage.
- Family Ties: Lost Relic Games Game Jam submission https://thebirdbard.itch.io/family-ties
- Memory Mission Control: A website in which students can enter words/problems/questions and enter definitions/solutions/answers in pairs that they can use to quiz themselves in an interactive game https://esham3.github.io/Memory-MissionControl/
- Minecraft Flower Quiz: A website for a personality quiz made for fun. It is to see what Minecraft flower the quiz-taker is
https://esham3.github.io/minecraftFlowerQuiz/
- Your Virtual Piano: A website cloning experiment in which I recreated a Virtual Piano site's basic functionality (piano-playing with point-and-click functionality and the keyboard. And piano playback). https://esham3.github.io/cloneInterfaceAssignment/
- RooME: An iOS app, coded in Swift, designed to assist users with household maintenance. Specifically, it would help with organizing their house chores, ideas, shopping lists, and items by room. I have completed a small portion of the app so far. Demo Video
- Rhythm Game Arcade Controller: This Human Interface Device and game uses the Circuit Playground Express and Unity Notion Documentation
- DnD Soundboard: This physical project uses the Circuit Playground Express Notion Documentation
- Stop-Go Conveyor Belt: This physical project uses the Circuit Playground Express Notion Documentation
- Virtual Mannequin: This is a Figma prototype of an app for users interested in 'trying on' clothes purely via a virtual medium
Figma Design Page
- Tipping Screen: This is a Figma prototype for a proposed ideal tipping screen
Figma Design Page

Activities

- Treasurer, Google Developer Student Club (GDSC), Fall 2024
- Board Advisor, Google Developer Student Club (GDSC), Fall 2023 to Spring 2024
- Event Planning Chair, Google Developer Student Club (GDSC), Fall 2022 to Spring 2023
- Marketing Director, Society of Asian Scientists and Engineers (SASE), Fall 2022
